Work Experience

Associated Students

Building Service Assistant

November 2024- Present

- Maintained and repaired fitness equipment in a multi-million-dollar facility, resolving 10+ mechanical issues weekly and reducing downtime by 15%.
- Monitored, tracked, and executed 50+ monthly maintenance and inspection tasks in a 2023 Outstanding Facilities Award-winning, LEED Platinum-certified facility, using performance metrics to sustain 99% operational readiness.
- Developed a shadowing program that accelerated new hire readiness to perform independent work by 30%

Towneplace Marriott

Breakfast Attendant and Front Desk Associate

May 2024 - August 2024

- Managed high-volume breakfast operations for 100+ daily guests by optimizing inventory controls and resource allocation, reducing waste by 15% while maintaining strict quality and compliance standards.
- Processed high-volume client transactions for 50+ daily guests, managing reservations, payments, and allocations with 100% accuracy in the property management system.
- Resolved client issues with a 90%+ first-contact resolution rate, mitigating risks and maintaining high satisfaction without escalation.

Major Related Projects

Tracking Gatorade Sales using SQL

January 2025 - May 2025

- Ensured data integrity across 6+ normalized relational tables by implementing primary/foreign key constraints, improving reporting accuracy and eliminating redundancy
- Collaborated in a 4-member team to develop data visualizations and present strategic recommendations to a 30+ person audience, translating analytics into clear business actions
- Identified cost-saving opportunities by assessing 20+ suppliers and flagging underperformers through analysis of pricing and delivery volumes.

Improving Equinix audit time using ServiceNow

January 2025 - May 2025

- Reduced audit cycle time by ~30%, decreasing audit time from ~6 weeks to approximately 4.2 weeks days through AI-driven workflow automation and real-time client updates.
- Increased staff productivity by cutting repetitive audit tasks from 60% to 30% through AI-powered automation in ServiceNow, reallocating time to high-value analysis and decision-making while delivering validated results with <1% error rate.
- Streamlined client communication and audit transparency by replacing manual weekly spreadsheet updates with real-time ServiceNow dashboards, cutting client follow-ups by 50% and driving a surge in cross-team collaboration and accountability.

Leadership Experience

Nikkei Student Union

Sports Coordinator

May 2025 - Present

- Planned and led 10+ organized sports events per semester for the Nikkei Student Union, consistently engaging 25–40 members per event and driving a 20% increase in active participation.
- Streamlined logistics by managing facility scheduling, budgets, and equipment allocations, reducing planning time by 40% while ensuring zero cancellations or disruptions.
- Expanded recreational offerings beyond basketball to multiple sports, improving member retention by 15% and strengthening collaboration across a diverse student community.
